Experience Summary

10+ years of IT experience in Advanced DevOps technologies, Kubernetes, Openshift Admin, Various cloud technologies. Designed and maintained CI/CD pipelines using GitLab to automate build, test, and deployment processes for enterprise applications. Implemented Infrastructure as Code (IaC) using Terraform to provision and manage cloud infrastructure environments, ensuring consistent and repeatable deployments. Designed and managed containerized workloads using Docker/Podman and deployed scalable services using Kubernetes for improved portability and scalability.

Successfully implemented Performance Acceptance Test, High Availability and Disaster Recovery Sign off for a hefty workload of 90M customers. Implemented comprehensive observability platform with Prometheus, Grafana, EFK stack. Architected and maintained containerized workload deployments on Kubernetes, utilizing Helm for package management, release orchestration. Strong understanding of multi-cloud networking architectures across Amazon Web Services and Google Cloud Platform, including VPC design, Internet Gateways, NAT Gateways, private/public subnet routing, and multi-region connectivity patterns for highly available deployment.

Professional Experience

Oracle Solution Services India

TA Lead (Technical Architecture Lead)

March 2022 - Present

- Provision Cloud Infra Resources to Product Engg via Terraform
- Plan BRM Cloud Native Infrastructure, deployments
- Implement E2E monitoring, Security best practices
- Create and tune CI/CD pipelines to Implement E2E Automation along sanity test automation
- Implement and Plan Go live of Telecom Malaysia/Pakistan

BLUE ROSE TECHNOLOGIES SDN BHD (Malaysia)

Senior Consultant

February 2020 - December 2021

- Oracle Cloud Infrastructure Provisioning
- Scaled Jenkins Automation pipe to enhance CI/CD and smoothen the ongoing deployment mechanism
- Run and support Performance and HA test to fine tune applications
- Migration of Existing On premise workload to Cloud native Solution, along with Monitoring and Visualization Stack

Clover Infotech (Mumbai)

Senior Consultant

November 2018 - January 2020

- Handling Complete Middleware stack of Axis Bank, involves end to end installation and integration of all products of Middleware
- Handling critical Finacle services and daily monitoring and deployment
- Installation of products like Oracle Weblogic, Oracle HTTP server, IBM WebSphere, IBM HTTP server, Apache HTTP server, Apache tomcat, JBOSS
- Implemented SonarQube for Code Quality Analysis
- Workload deployment on Cloud Native Weblogic using Helm
- Performing end to end SSL implementation one/two way SSL involving Traefik/Nginx

L&T Infotech (Mumbai)

IT Consultant

July 2015 - November 2018

- Statoil ASA Implementation: Implementing various middleware cluster deployments across multiple projects
- Implemented Containerization of Java workload, to enable Microservice methodologies
- Implemented CI/CD pipelines for various products to enhance productivity
- Migrated On-Premise Workload to OCI
- Reduced manual effort Using Bash Shell scripting for Batch Jobs for Billing
- Configured Prometheus/Grafana, ELK stack for monitoring and logging

Technical Skills

Domains

- Telecom
- Banking
- Oil & Gas/Retail

CI/CD

- Jenkins
- GitLab CI
- SonarQube

IaC

- Terraform
- Cloud Native

Containers

- Docker
- Kubernetes
- Podman
- Helm

Cloud Platforms

- OCI (Oracle Cloud)
- AWS
- GCP

Automation

- Bash
- Python

Monitoring

- Prometheus
- Grafana
- EFK Stack
- ELK Stack

Orchestration

- Helm
- Kubernetes Operators

Certifications

Certified Kubernetes Admin (CKA) - 27th March 2024

Oracle Cloud Infrastructure Architect Associate

Education

BE in Electronics and Telecommunication Engineering

University of Mumbai

2011-2015 (June)

Percentage: 65% | Country of Education: INDIA

HSC - Maharashtra Board (Science)

Secondary School Certificate

Percentage: 88%

SSC - Maharashtra Board

Secondary School Certificate

Percentage: 91.07%

Personal Details

Marital Status: Married
